

Premier Compliance Services, Inc. (PremierC) strength lies in our comprehensive understanding of the imperatives facing the **Healthcare** industry and the fact that our personnel have hands-on appreciation of the technologies involved. Through our philosophy of employing the best associates for your project, PremierC ensures that your GMP needs are met at the highest possible standard and the most competitive cost. Our goal is always to provide the most value to technologically driven projects and ensuring that our clients succeed. PREMIERC approach is based on the following principles:

- PREMIERC has a wide **range of expertise** in the regulatory compliance arena as it applies to the FDA regulated industry. We are not limited to one core competency.
- PREMIERC is focused and **experienced in FDA compliance** requirements as it relates to processes and facilities in the healthcare industry.
- PREMIERC prides itself on being a highly **enthusiastic organization**. Our pragmatic and results oriented approach ensures that our client's objectives are met in a most expedient manner.
- PREMIERC utilizes associates to ensure that the proper expertise to assist with your project is available at the most **competitive price**.
- PREMIERC remains available and **approachable** so that we may respond quickly to your changing needs and effectively integrate our personnel into your team.
- PREMIERC strictly controls its overhead cost and only utilizes associates when needed, thus ensuring that **your costs are the lowest**.

In summary: PREMIERC will add experience and depth to your staff at the lowest possible cost to you.
